

LET'S PLAY OUTSIDE!

**OUTDOOR TOYS FOR CHILDREN**

**PEDAL GO-KARTS & TRAMPOLINES**

ENGLISH

# Playing is fun! Playing outside is even better.

Playing outside is fun! So what do you need? Fun and challenging toys for outside, of course! Like a trampoline to use up all that energy, or a great go-kart which brings a new adventure every day. That was Henk van den Berg's idea over 25 years ago too. In his free time, he successfully built and sold his first go-kart. Encouraged by this success, he decided to use his summer holiday to build more go-karts. In the barn on his parents' farm, he sawed, welded, fixed and painted.

Thus BERG Toys was born, now a world market leader in go-karts. Our go-karts are sold in more than forty countries! And besides go-karts, we also make and sell other toys for active play, such as BERG Trampolines. Visit our dealers to see and naturally try out the BERG Go-karts and trampolines!

BERG Toys wants to encourage as many children as possible to actively play outside. So there's something for the youngest children too. BERG Toys specially developed the Junior line for them, so that they can enjoy their first go-kart at an early age.

BERG Toys products offer pure, timeless and honest fun. Playing outside together not only stimulates the motor system but also social and emotional development. We focus a great deal of attention on durability and safety. Children must be able to play with our products in a carefree and uninhibited way. The go-karts and trampolines are therefore subjected to extensive testing. Our trampolines have an extra wide protective rim and have even been designated 'Safest choice'. With a BERG product, you choose a safe product!

Every day, we enjoy designing, making and selling our products. We've also enjoyed working on this lovely brochure. So we hope you have fun browsing through it, choosing your own go-kart or trampoline, and of course playing outside with your BERG product!

## Why BERG Toys

### Go-karting is fun and healthy!

BERG Toys has more than 25 years of experience in designing, producing and selling go-karts and trampolines. We strive to design products that allow children to play in a fun and carefree way, both now and in the future. Durability is one of the most important aspects in realizing this, as a BERG toy guarantees years of playing pleasure!

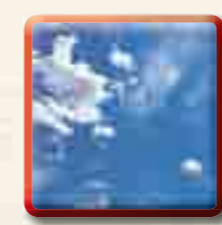

### Innovative leader

BERG's extensive team of experienced designers and engineers is constantly busy renewing and improving our go-karts and trampolines. That's our system for

making BERG products better, more attractive and nicer to use. Whether it concerns technique, quality, easy use or design, each innovation is focused on increasing the fun of using our toys.

### Safety and quality above all

Children should be able to play with toys in a carefree and uninhibited way, which is why safety and quality is a given at BERG Toys. Aside from our own safety tests, our go-karts and trampolines have also passed the tests of independent European testing institutes such as TÜV and Intertek.

### Environmentally aware

The future of our planet is important at BERG Toys. That is why our products are as environment-friendly as possible. This applies for example to the lacquer we use, as well as the synthetic components of BERG go-karts. BERG's approach is to take into account the world around us whenever we can.

## Why BERG Toys:

- ✓ Pure fun
- ✓ The safest choice
- ✓ Highest quality
- ✓ For good health and social skills

## Your dream come true!

Do you dream about sitting in the cockpit of a Formula 1? This passionate dream can now come true. Inspired by the legendary Ferrari Formula 1 cars, the Ferrari 150° Italia go-kart raises the adrenalin level of any racing car fanatic.

### Ferrari 150° Italia

#### Your own race car!

Its aerodynamic side-skirts, rear wings, nose spoiler and steering wheel with all the characteristic operating elements, race tyres and stickers with the logos of all the sponsors makes it difficult to tell the difference between this go-kart and the original...even for the discerning eye.

## Do you have enough power to race at top speed?

This is your chance to drive a real Ferrari FXX go-kart! Experience the passion and speed in these high-tech, absolutely top-rate racing cars! The Ferrari FXX go-karts are inspired by the most exclusive Ferrari GT racing car – the Ferrari FXX.

### Ferrari FXX Racer

#### Superior race performance!

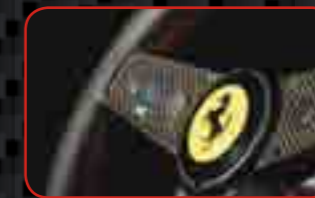

Experience the impressive acceleration in the super manoeuvrable and very fast Ferrari FXX Racer. With its aerodynamic front spoiler and the special nose and rear spoilers you're far ahead of your competitors. Thanks to the super-slick tyres, you have optimal grip on the circuit. Are you ready for a wild time?

### Ferrari FXX Exclusive

#### The ultimate experience!

Thanks to the aerodynamic spoilers and side-skirts, the Ferrari FXX Exclusive makes an impressive appearance on any circuit. With its 7 gears, 12-inch light-metal look wheel rims with ultra-flat super-slick X-treme tyres, you accelerate to the pole position in no time. The electronic on-board computer in the dashboard lets you keep a sharp eye on your top speed and round times.

## Have an adventure!

Have a great time racing through mud, surviving in the wood and tearing through ponds! The Jeep® go-kart is the vehicle that lets you do all this. These super sturdy go-karts can be taken everywhere, giving you the most unforgettable adventures. Your friends will surely be envious when you return with all your adventure stories. One thing for sure: from now on, everyone will want a ride on your go-kart.

**Jeep WRANGLER**

**From now on, you can tackle any terrain!**  
In rough terrain, you don't want to find yourself with a flat tyre. That is why the Jeep® Wrangler is as standard equipped with a spare tyre. The go-kart is also equipped with a standard roll-bar. The all-terrain tyres guarantee unsurpassed grip under all circumstances. The adjustable seat is even good for taking your parent along in this go-kart so he can see for himself what a real ride feels like.

**Jeep Junior**

**Years of adventure!**  
Just like the Jeep® Wrangler, its smaller brother 'Jeep® Junior' is equipped with all-terrain tyres. This gives the go-kart optimal grip on any surface. The adjustable seat and adjustable steering wheel gives you an ideal sitting position and lets you steer the go-kart past any obstacle. The cool colours and familiar Jeep® vehicle design will ensure everyone notices when you drive by.

## Down on the farm

From now on there is a real John Deere for every age, so here is one for you too! Now you can help around the farm with your own John Deere. The John Deere go-karts look so real that you have to watch out that the police do not ask for your driving licence. The BF-3 and AF models can be enhanced with real implements (a rear lifting device, roll-bar, front mudguards, 3 gears, etc.) so that you can really help out on the farm.

## Are you ready for the hard work?

Driving your own tractor is now possible! For the real fans, the Traxx models are made in the original style of Claas, Fendt, Case-IH and New Holland. The BERG Traxx go-karts have impressive tractor tyres measuring no less than 46 cm in diameter at the rear and 40 cm in diameter at the front, an exhaust pipe and the option to get cracking using real tools. The BF-3 version comes standard equipped with Lifting Unit, roll-bar, front mud guards, and of course 3 gears. All you need to do is choose your brand, model, and tools, and you'll be ready for hard work!

**BERG RACING**

## Ready to race? Go!

Are you looking for that racing sensation? The BERG Racing go-karts are true speed demons. All models come equipped with super fast slick tyres and an aerodynamic race spoiler. The Racing GT-3 and Racing GTX-treme even come with 3 gears!

**BERG Racing GTX-treme**

### Superior brakes with authentic disc-brake

When racing, reliance on your brakes is essential. With this authentic disc-brake you'll always have your Racing go-kart under perfect control in any given situation.

### Racing at top speed with 3 gears

This model has no less than 3 gears, back-pedal brake and AF. You drive lightly, accelerate easily and reach absolute top speed! These aspects also ensure optimal safety.

### High-tech electronics

The racing GTX-treme comes standard with lighting and digital onboard computer.

### Super fast racing with authentic slick tyres!

Using these super slick tyres especially designed for the Racing go-karts you'll maintain optimal circuit grip, even at top speeds!

### Get sponsored

A true racing team will get sponsorship. Stick the enclosed advertisement stickers onto your Racing GT.

# A world tour of 17,000 kilometres

After a unique and exhaustive go-kart journey that lasted two years, 'our' Brazilian, José Gerardo, alias Zé do Pedal, arrived in Johannesburg on 1st June 2010. His 17,000-km journey began on 10th May 2008 in Paris on an X-plorer X-treme provided by BERG Toys. The journey was difficult, but thanks to the indestructible go-kart and his own will power, he managed to reach the finish line.

**BERG X-Plorer X-treme**

### Superior brakes with authentic disc-brake

Whether you're driving slow or fast, up or down a hill, using the disc-brake on your go-kart will ensure you always have the situation under perfect control.

### Spare tyre: prepared for any emergency!

True off-road drivers don't leave home without their spare tyre. The valuable spare tyre is protected by a cover, always ready for use!

### Light and fast driving with 3 gears

This model has no less than 3 gears, back-pedal brake and AF. Not only perfect for hilly terrain, but it allows you also to drive lightly, accelerate easily and reach absolute top speed! The AF also ensures optimal safety. The free-wheel device allows you to keep the pedals static while the go-kart is moving, making the go-kart extra safe.

### Optimal grip with huge off-road tyres!

These huge impressive off-road tyres with a diameter measuring no less than 46cm provide constant grip and effortless driving across all kinds of terrains!

## Drive into your own adventure world!

Want a ride on a 'real' engine? Want to go on a safari? Or would you rather race on the sturdy black go-kart? No problem! We have just the go-kart for everyone!

**BLACK EDITION**

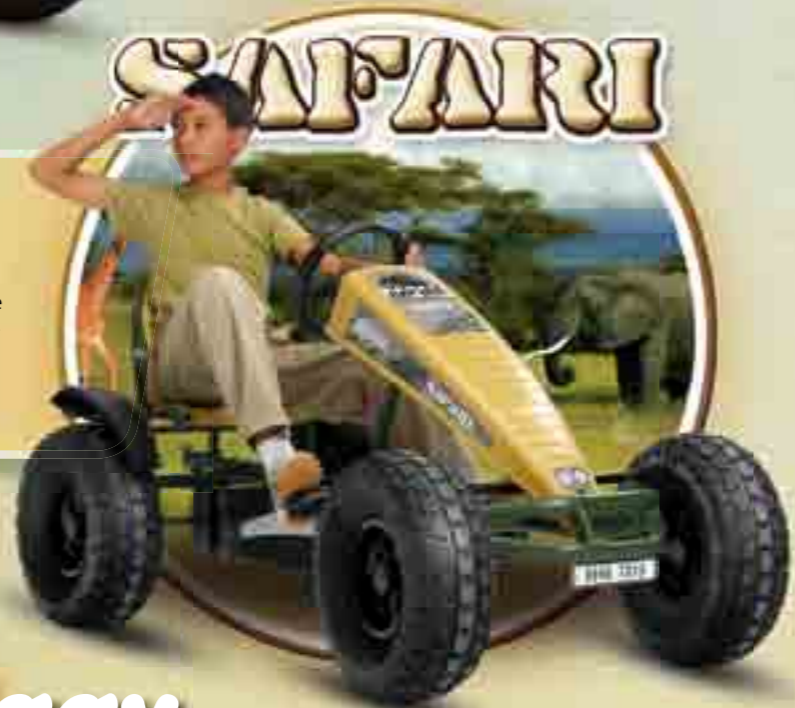

**NEW**

### Dare to challenge this speed monster?

On this black undercover go-kart, you will easily race past everyone in the dark. With its sturdy rough terrain tyres, the BERG Black Edition can tackle any surface and you'll never skid. On the spoiler there are two headlamps, indistinguishable from real ones, which provide the finishing touches to this go-kart.

### Ready for a real adventure?

Do you fancy a journey of discovery in unspoilt territory? The BERG Safari will take you anywhere you want. The huge impressive off-road tyres enable you to work your way across rough terrain. Its camouflage colours allow you to blend into the scenery. Let the expedition begin!

## triggy

### At last, your first sturdy go-kart

This small go-kart gets you everywhere. Its compact size allows you to race round any bend. The Triggy boasts the **unique BFR system** which means that you can first stop with a backward movement and then pedal backwards. With its adjustable seat and steering wheel, the Triggy will provide years of fun. The (optional) loader provides the finishing touch: move things, shift snow or dig a hole? With the Triggy's loader, the options are endless.

+ optional loader

### Start the engine! Vroooooommm!

If it's you who is driving, or you're relaxing in the side car as you drive around in the BERG Chopper, you'll be the king of the road. The Chopper has an impressive front fork, a bespoke front tyre and striking chrome hues, and is super comfortable too. So, take any of your friends out for a spin on this tough Chopper!

### Do the Balanz, ride the bike!

The BalanzBike is a snazzy tricycle for children (and parents) who want to have fun and exercise. Riding the BalanzBike is a unique experience! You are closer to the ground, super manoeuvrable and super fast. A real hit with both young and old alike! The BalanzBike uses body steering, i.e., a sensational cardio fitness work out. The small movements made when cycling train the abdominal, leg and buttock muscles. This lifestyle gadget will see you right as your health and figure are worked on in a snazzy way. **BalanzBike is available in two models: BalanzBike Bazzic XL without gears and BalanzBike Extenz XL BF-3 with three gears.**

## The first scooter that combines scootering and skating!

Do you want to ride on your scooter or simply skate? The BERG Kick360 lets you do both! The BERG Kick360 was developed jointly with skaters and BMXers. The result is an unique scooter with a special board that you can even use on a skating ring! Your friends will be amazed when you make a 'kick 360' all at once. Going to school is also so much more fun now that you arrive at school on your BERG Kick360.

### Unique stunt deck

The cooperation between skaters and BMXers resulted in the development of the 'deck', which makes it very easy to do stunts and tricks with the BERG Kick360. By standing on the back of the specially developed deck you can even ride on one wheel.

### Eight-inch wheels

Thanks to its big wheels, the scooter rides very smoothly and allows you to race real well.

### Cool design

Don't you want to be seen on such a cool scooter? Thanks to the special grip tape with cool graphics, you will have a secure ride on your BERG Kick360.

### Folds easily

In no time you can fold the BERG Kick360 and easily take this scooter anywhere.

**SCOOT & SKATE**

BERG Kick360

## Ready for a challenge?

The two-wheel drive BERG Freestyler 2WD is the quad of the go-karts. With its compact frame, high seat and handlebars, it easily allows you to do real stunts. Whether you drive sideways on two wheels or make a wheely, the Freestyler 2WD lets you impress your friends. The uniquely developed seat also allows you to do your stunts together with your friends! The Freestyler 2WD is good on any surface, grass, mud or stone. It never lets you down.

## FREESTYLER 2WD

BERG Freestyler 2WD

### Easy trick-riding on your back wheels

The wheely bar enables you to ride easily on the back wheels. The special design of the wheely bar provides optimal safety during the stunts.

### Riding on two wheels through the bend

Thanks to its two-wheel drive the Freestyler 2WD can drive on either left wheels or right wheels. Its never-ending grip makes any surface accessible.

### Perform awesome skids in no time

Thanks to the disk brakes you can perform fantastic skids! Of course, you can also use them to brake.

### Playing together is twice the fun

The 2-person buddy seat in the Freestyler 2WD accommodates even two riders. So, that's twice the fun!

## Make the city your playground!

The BERG City go-karts are much more compact and lighter than the remainder of our go-kart range. This is why they drive smoothly, and are very manoeuvrable: the perfect go-kart to drive anywhere. And your parents will have no trouble storing the compact City go-karts!

*Rally*

### The Rally Orange gets you anywhere

The BERG Rally Orange is a light and compact model that can drive anywhere. Close your eyes and dream about your favourite ride, no matter where. Everything is possible with the Rally. The Rally's compact form gives you extra manoeuvrability and lets you quickly swing around the bends.

#### Fast, faster, the fastest

Awesome rims with pneumatic tyres so that you're not only fast but also enjoy racing comfort!

#### Stopping and reversing in one move

The engineers at BERG Toys have made sure that with this go-kart you can brake and reverse by simply using your back pedal.

#### Additional fun with the BERG Trailer Junior

The BERG Rally Orange comes with a tow-bar as standard. It enables you to attach the BERG junior trailer to the Rally. Besides racing, you can now also transport your stuff.

#### For many years of fun

The adjustable seat and adjustable steering wheel make the Rally suitable for children from the age of 4 to 12.

You can choose from the tough blue and yellow Cyclo, the colourful and trendy Roxy in pink and orange with multi-colour flower stickers for girls, and the BERG Gold with a gold frame, equipped with chrome effect paintwork and large rims with slick tyres that will certainly get you noticed when you are out and about.

BERG Cyclo AF

gold

Roxy

#### Aerodynamic spoiler

This spoiler makes your go-kart aerodynamic! You can even build in an on board computer (optional) to measure your top speed.

#### Always stable, even on a bumpy road

Continuous stability, even on rough terrain, as the swivel axle ensures all 4 wheels remain on the ground.

#### Years of playing pleasure with seat adjustment

With this simple seat adjustment, you can adjust the seat to your own height, making the go-kart suitable for any age – from 5 to 99.

Standard on every go-kart

## For the young explorer!

This unique walk bike was developed for boys and girls, allowing even the youngest ones discover the world on a real BERG Biky. What makes the BERG Biky special is that children can put their feet on the back frame while exploring, so they can also improve their sense of balance. This is the ideal preparation for learning to ride a bike later. The low instep, the adjustable seat and steering wheel ensure that the BERG Biky will be used for many years of fun.

### Low instep

The low instep of the BERG Biky makes it suitable for children from the age of two.

### Indestructible

An original BERG design made of high quality materials.

### Air tyres

The air tyres of the BERG Biky make it very comfortable to use.

### Develops your sense of balance

Designed so that the child's feet can also be placed on the frame to develop balance. That makes BERG Biky ideal for learning to ride a bike.

### Balance training

Scan this code with your mobile and see how sturdy the BERG Biky is!

## You can be super fast and manoeuvrable

Actually, this is your first cool go-kart. There is a lovely pink and white model for the girls and the boys can race by on a cool orange one. Now you and all your friends can discover the wonderful world of playing outdoors. From now on, you can ride everywhere on your go-kart and Mom and Dad don't have to worry at all since Buddy meets all safety standards.

## Buddy

### Adjustable

As a result of the adjustable seat and steering wheel, you can continue playing with Buddy while you grow!

### Always stable

The swing axle ensures that Buddy's wheels always touch the ground and so you have a firm grip on the surface under all circumstances.

### Easy

Very easy to put on or take off.

### Robust

Made from strong but light material so that you don't lose any speed.

### Extra fun

The cool black trailer fits on any BERG Buddy.\*

### Plastic

The plastic tipper prevents rust and paint damage.

BERG Buddy

Scan this code with your mobile and see how fast the BERG Buddy can go!

## Even more fun

This Trailer Junior makes playing outside even more fun. Fill your trailer with sand to build the biggest sand castle ever or go for a picnic with your best friend. These are obviously just two ideas - the options are endless!

BERG Trailer Junior

Scan this code with your mobile and see great fun with the BERG Trailer Junior!

Every go-kart can be stored compactly due to easy upright parking.

# Customize your BERG Go-kart

## Tipplers

Thanks to the tipper with the Western cover you can also carry things with you or give your friends a lift. Nearly all go-karts have a towing hook; in no time you can attach a trailer to the back of the kart.

**Tipper Trailer Basic**

**Tipper Trailer Super**

**Tipper Trailer Vario**

**Trailer Junior**

Suitable for BERG Buddy's

**Cover L**

**Cover XL**

**Western Cover**

All 4 'windows' of the hood can be rolled up and down, suitable for Tipper-Trailer Basic & Super Tipper

## Wagons

With a wagon you are always ready for a wonderful ride in town or for a picnic in the park. Both wagons are simple to assemble or disassemble, making it easy to carry them in the back of the car.

**Western Cover Beach Wagon**

(optional) for Beach Wagon. All 4 'windows' of the hood can be rolled up and down.

**Beach Wagon**

**Beach Wagon XL**

**BERG Dempy**

**Support Strut in black** (optional)  
Not suitable for the Trailer Junior

## Trailer frame

You can head out in all directions with the trailer frame behind your go-kart! With the Hoist and Digger you can really get to work. Or, friends can join you on the Stand-up or Two-seater. With the trailer frame endless variations are possible!

**Two-seater**  
(excl. trailer frame)

**Tipping loader**  
(excl. trailer frame)

**Large digger**  
(excl. trailer frame)

**Stand-up**  
(excl. trailer frame)

**Hoist**  
(Max. 25 kg, excl. trailer frame)

# Make it, Moov it

MOOV is a unique building toy with which you keep on playing! Using the rings, wheels, axles and other parts in the construction kit, you can build the nicest bikes, scooters, racers and more. All this without the need for tools, simply with your own hands! Is your model finished? You can just like that play with it! You can play with it indoors, but a spin through the neighbourhood can also be real cool. Feel like remodelling it? You can take MOOV apart very easily and build something new. MOOV is a creative toy, so with just a bit of fantasy, you can create your own MOOV model!

# InGround

## Conspicuously inconspicuous

The BERG InGround trampoline offers a unique and patented solution to those people who want to install their trampoline as subtly and discreet as possible. The BERG InGround trampoline is Europe's first and only trampoline that has been constructed especially for bedding into the ground. You can integrate your trampoline into your garden in a neat, ultra-simple and safe manner. This inconspicuous trampoline provides your kids with tremendous fun without impacting on the look of your garden!

**Extra durable thanks to 8 levels of stitching.**

The springs are attached to the jumping mat by triangular eyes that are stitched 8 times. This makes the trampoline solid, safe and longer lasting.

**Integrated frame net**

The trampoline has a frame net that is as standard attached to the trampoline. The frame net provides extra safety so that children, animals or objects can not get under the trampoline. However, it has a sufficient clearance area to allow you to bounce well. (Completely submerging the trampoline will create a cushioning effect, which obstructs bouncing.)

**Unique frame construction**

The frame is especially designed for an easy and safe installation and ... you don't pay for the intermediate legs, which you will not need. The top rail rests upon specially made lowered feet, which are fixed into the surface with the accompanying ground anchors.

**PATENTED!**

Note: The trampoline should be installed according to the description in the accompanying manual!

Look for the symbol explanations on page 40.

# EazyStore

The BERG EazyStore can fit almost any garden. Its rectangular shape means it can be easily located in the corner of a garden. It is simple and easy to dismantle and store away. Kids can spend the day jumping and in the evening, the trampoline can be stored against the wall or in the garage.

**Space-saving storage**

The folding legs allow you to store the trampoline easily and quickly.

# Choose YOUR style with Jumping Styles!

Your garden is an extension of your lifestyle; perfect for kids to play in. A trampoline can really be very exciting. However, sometimes they can seem to stand out too much in your garden. This is the reason that BERG Toys has developed a unique series of designer trampolines that can perfectly match the style of your garden: the BERG Jumping Styles.

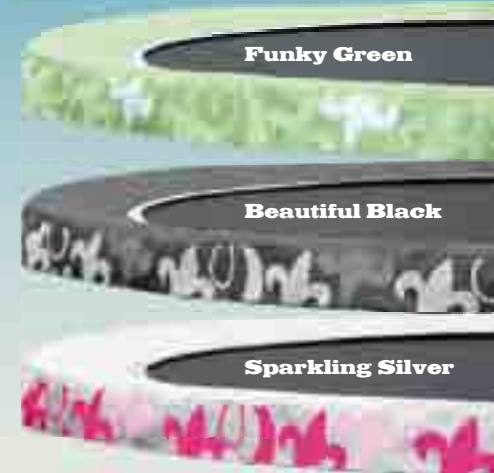

## JUMPING STYLES

**Extra safety with safety net**  
A Safety Net has been designed especially for the Jumping Styles: A taut and stylish addition to your trampoline.

**Jumping Styles cover**  
We now have a fitting cover for the Jumping Styles. This will protect your trampoline against all kinds of weather.

3 contemporary designs

Safety net Jumping Styles

**PATENTED padding system**  
The unique and patented protective surround pad has a SAFETY ZONE. This is an extra thick and especially designed protective layer, which offers protection where it is needed the most: on top of the steel frame.

**Flower motif on the jump mat**  
The jump mat of the Jumping Style trampolines has the same flower motif as the protective surround pad.

**Luxurious look due to its stylish black frame**  
The frame of the Jumping Styles has a black coating. This provides the trampoline with a luxurious look. In addition, the frame is galvanized on the inside and the outside, which makes the trampoline extra durable.

# Safety net

**Extra safe, optimal looks and comfort.**

BERG Toys advises you to always use a trampoline with a safety net. This way you can practice jumping in safety, without any risk of falling off the trampoline. BERG Toys has successfully developed a new safety net that unites several safety requirements into 1 product!

**Simple to enter and exit, yet always enclosed during use**

The BERG safety net combines optimal comfort for entering and exiting with the assurance that the net cannot be accidentally left open during use. You can quickly and simply get off the trampoline and clamber back on without any risk of falling through the opening in the net.

**Optimal strength of net combined with excellent looks**

A safe net is strong, wear-resistant and durable. BERG Toys uses a special net that combines an excellent view from inside to the outside, and vice versa, with optimal strength and durability.

**Quick and easy assembly, but also strong**

Thanks to the specially-developed assembly brackets it couldn't be easier to erect the safety net around a BERG trampoline, whilst guaranteeing optimal strength whilst in use.

**Extra protection around the poles**

A thick layer of foam around the poles of the safety net ensures that the jumper is also protected against the poles.

Scan and see how stylish and safe the BERG Safety net Jumping Styles is.

# Safety net Jumping Styles

## Safety net Jumping Styles

For the Champion, Jumping Styles and the Elite+, there is now the Jumping Styles Safety net (not suitable for InGround models). The safety net is fixed at the top and bottom with two large whalebones, providing an extra tight closure. The self-closing entrance ensures that no one can accidentally fall off the trampoline. All the poles also have a stylish black cover.

Look for the symbol explanations on page 40.

# Tattoo

**The only trampoline with a practice platform**

You want to learn how to bounce and stay up as long as possible on the trampoline, but spectators do everything they can to have a go. By telling you and gesturing what the next bounce must be, they can make it as difficult as possible for you. With the BERG Tattoo trampoline, there is now a trampoline practice game that you can all play together. Boys and girls, young and old, experienced or beginners! The Tattoo practice game can be played by 2-10 people from the age of 6.

BERG Toys have stressed for years the importance of only allowing one child at a time to jump. To encourage children to play safe, BERG Toys has developed the BERG Tattoo.

The BERG Tattoo jumping mat is unique in the world of trampolining, and BERG Toys owns the exclusive patent.

**PATENTED!**

# Elite+

## The ultimate quality, the ultimate choice

**Design your own trampoline**  
For the production of the BERG Elite+, only the best, strongest and safest material is used. The frame tubes, for instance, have a 2mm thick wall and are fully galvanised inside and out. We also use new unique springs which gradually increase the energy, making bouncing safer, higher and more comfortable. The padding is hand-made in the Netherlands by a team of experts to achieve ultimate quality. The BERG Elite+ naturally complies with all statutory requirements.

You can now design your own trampoline, the best and safest on the market. There is a perfect trampoline for everyone.

### What does your favourite trampoline look like?

The BERG Elite+ is designed and made to be used at a high level and is therefore also suitable for professional use.

**NEW**

## Regular

### Fixing the Safety net

By fixing the safety net to the outside of the padding, the whole trampoline can be used.

### Very strong and rust-resistant frame

The frame is optimally protected against rain, sun and other weather conditions because both the inside and the outside is galvanised. This makes the trampoline even more durable. The 8 strong bolts used in the frame also provide additional reinforcement.

**Also available without safety net**

### Safety net Jumping Styles

A luxury safety net is available for all 'Regular' models. By fixing it at the top and bottom, the safety net looks beautifully streamlined. The self-closing entrance ensures that no one can accidentally fall out of the trampoline. All the poles also have a stylish black cover.

Safety net can be ordered separately.

### Ladder

Helps you climb on and off the trampoline. The BERG Ladder can be ordered separately.

### Higher and safer bounce due to the Goldspring

The Goldspring is a unique spring used by BERG Toys which gradually increases the spring energy. With this spring, the forces on the body are considerably lower. This makes the jumping higher, safer and more comfortable.

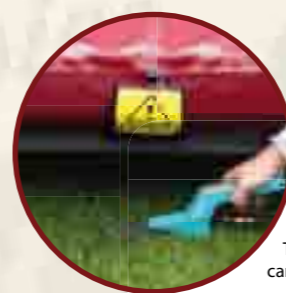

## InGround

BERG Elite+ InGround not only looks great in your garden, it is also very safe. Standing only a few centimetres off the ground, the risk of accidents is minimised. BERG Toys advise providing a soft base around the trampoline. Every BERG Elite+ InGround is also fitted as standard with a frame net which ensures that nothing undesirable can get under the trampoline.

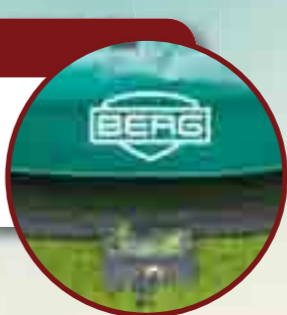

### Protective rim of top quality material

The protective rim of the BERG Elite+ is 40 cm wide and 3 cm thick and made of the strongest and best UV and wear resistant material, offering optimal protection for extremely long and intensive use.

### Frame net

The frame net ensures that nothing undesirable can get under the trampoline. The frame net is easy to lift so that the grass can be neatly cut.

### Connection

The padding joins seamlessly with the platform, so that no one can injure themselves on the springs.

## Tattoo

### The only trampoline with a practice platform.

The BERG Tattoo is a fun and unique trampoline concept which makes trampolining even more enjoyable. See page 33 for more information.

The BERG Tattoo jump mat is only available with a diameter of 430 cm.

- Jump on your feet and knees facing the centre**
- Jump on your feet facing the centre**
- Jump on your backside facing the centre**
- Jump on your hands and feet**
- Jump on both feet**
- Jump on your back with your arms by your side**

www.bergtoys.com

# Accessories

## Ladder

The child-friendly ladder has firm, robust steps to stop you from slipping off. To ensure the safety of small children, BERG Toys advise only using the ladder in combination with the safety net.

Illustration of the 'Extra' cover

## BERG Trampoline covers

Trampoline covers are available in all trampoline sizes. With their 5 extra large water drainage channels allowing any rain water to drain off quickly. The 'Extra' cover is made of high quality materials.

## Frame net

The frame net ensures extra safety so that children and pets cannot crawl under the trampoline. The frame net is simple to attach. The frame net fits all circular BERG trampolines, even those that have not been lowered.

## Anchor set

The anchor set ensures that the trampoline remains firmly rooted to the ground. We advise the use of an anchor set in the case of a lowered trampoline, so that the trampoline can't move from the hole dug for it.

## Guarantee

BERG trampolines are high-quality pieces of equipment. BERG Toys offers you two types of guarantee for years of carefree fun:

**1. Function guarantee**  
A function guarantee is a guarantee on the functional use of the trampoline. Please consult the table below for the term of this guarantee.

Model	Guarantee			
	Frame	Protective edge	Jump mat	Springs
BERG Jumping Styles	10	2	2	5
BERG Inground	10	2	2	5
BERG Favorit	5	2	2	2
BERG Champion	10	2	2	5
BERG EazyStore	10	2	2	5
BERG Elite+	10	5	5	5

\* The recreation market is subject to different guarantee periods (see leisure brochure)

The safety net and frame net are subject to a guarantee period of 2 years, while the other accessories are subject to a guarantee period of 1 year. Parts that are susceptible to wear and tear (such as elastics) and weather influences such as rust and discolouration are excluded from the guarantee.

**2. Five-year service guarantee**  
BERG Toys guarantees that you can order parts up to five years after production, in contrast with many other manufacturers. This will guarantee years of fun, and it is a unique service in the trampoline segment.

For more information on the guarantee, go to [www.bergtoys.com](http://www.bergtoys.com)

## Why is BERG 'the safest choice'?

**1 Technology**  
BERG Toys' team of engineers are always working to find the best available safety features. These can be found in the protective edge, springs, Safety net and frame. A BERG trampoline means that you are always guaranteed the most effective safety features on your trampoline.

**2 Above & beyond EU standards**  
The trampolines of BERG Toys are tested by TÜV and AIB Vincotte inspectors. But at BERG Toys we go even further. We have taken the initiative to work at European level to further tighten the safety standards and offer our expertise to the European Union as a member of the 'CEN' working group engaged in drawing up a new standard for privately-owned garden trampolines.

**3 Testing lab**  
Due to the strict standards that BERG Toys sets itself, it has set up its own testing lab in addition to the European testing centres. It applies various leverage and jitter tests involving weights of as much as 970 kg to simulate use under the most extreme conditions. We also work with physiotherapists, testing centres and sports federations in order to maintain our expertise at the highest level and to test our products.

**4 Instructions**  
With every BERG trampoline we include clear safety and assembly instructions, as well as a free DVD which provides step-by-step instructions for learning to use your trampoline safely.

**In conclusion:**  
BERG Toys is constantly applying the latest technology and skills to make trampolining as safe as possible and sets the standard for the entire trampoline industry.

**That's why BERG is.....'the safest choice'!**

**ATTENTION!**  
Despite the fact that BERG is the safest choice when it concerns selecting a trampoline, it is very important that children use a trampoline in a safe manner and that an adult, such as a parent or guardian, supervises children to ensure SAFE USE. Always read and observe the user and safety instructions that are supplied with your trampoline, before you start to use it.

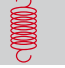

- Make sure that you install the trampoline correctly (e.g., sufficient space around the trampoline in case of a fall from the trampoline, sufficient height clearance above the trampoline).
- Make sure that the trampoline is properly maintained.
- Make sure that you use the trampoline in a safe manner (ensure children are supervised, allow only one person at a time on the trampoline, wear suitable clothing, etc.).

Only when observing these rules, the risk of using a trampoline is limited to a minimum. This is always the responsibility of the user/supervisor and not of the manufacturer and/or the supplier.

# Explanation of symbols Go-karts:
